USE

1. Cover the prepared nail surface and the entire hand surface with Perfect Prep Spray; then rough up the nail surface.
2. Apply the colour on the nail surface in two layers, then cure each layer, one after the other. Cure time: for 2–3 minutes (UV) or 30–60 seconds (UV/LED)
3. Cover the nails with shine gel.

Perfect tip

You may use it on base gel (Bond Gel Vitamine), but it can also be applied on built nails.

Extreme Gloss Gel

COVER GEL WITH GLASSY GLOSS EFFECT

From March

Durable shine that may last for as long as 3 weeks with our flexible, medium thick, easy-to-spread shine gel that requires no fixation. Forget cobweb-cracks and yellowing of the nail surface with this beautiful glassy gloss.

PNZ6044 | 8 ml
PNZ6045 | 15 ml

RELATED MATERIALS AND TOOLS

Perfect Prep, Perfect Bond Primer, LacGel, Bond Gel Vitamine, Elastic Hard Gel, Fiber Vitamine Gel, Premium Gel, Cuticle Oil - Grape

USE

After artificial nail building, dust off the filed surface, apply Extreme Gloss Gel in one thin layer, then cure it (for 2 minutes under UV lamps/1 minute under UV/LED lamps). Requires no fixation. For lacgel, the shine gel may be applied to the cured colour without fixation.

Silicone Nail Art Pad

TRANSPARENT, MINI SILICON PADS

from February

An excellent table surface protector to put under gel jars. It is transparent, and therefore perfect for colour mixes, and also prevents decor stones from bouncing off.

RELATED MATERIALS AND TOOLS

CreamGel, Delux Gel, Acryl paint, NailStar Rhinestones, Treasure Island, Mermaid Pearls, 3D Holo Drops, Diamond Flitters, Aqua Cocktail Drops

Perfect tip

Can also be cleaned with fixing liquid (Gel Cleaner).

Velvet Matt Gel

SILKY SMOOTH MATTE COVER GEL

From March

Make your clients' nails extra silky smooth! Have you been looking forever for a matte cover gel that will remain matte? With the flexible and medium thick Velvet Matt Gel requiring no fixation will provide silky matte nails for your clients for weeks!

USE

Apply the Velvet Matt Gel in a medium thick layer over the lacgel as cover after the second layer is cured. Before the use of the lamp, let the material spread for 20 seconds, then cure it (for 2 minutes under UV lamps/1 minute under UV/LED lamps). Requires no fixation.

Perfect tip

Use it on multiple nails at the same time, so you only have to wait for it to spread once.

USE

1. Cover the prepared nail surface and the entire hand surface with Perfect Prep Spray.
2. Position the guide the way the build requires.
3. Use Elastic Gel to create the base layer, then cure it half the way (for 60 seconds under UV lamps / 30 seconds under UV/LED lamps).
4. Use Elastic Gel to create the C-curve for the nail.
5. Cure it: for 1-2 minutes (under UV lamps) or 60 seconds (under UV/LED lamps)
6. Use Aroma Cleaner to fixate the nail surface.
7. The use of shine gel is optional.

Perfect tip

For building French and Baby Boomer nails use Delux Gel (#02) – use a long brush or ombre sponge for an even and precise application. Use flexible shine gel for cover layer.

Fiber Vitamine Gel

A BUILDER LACGEL WITH FIBRE GLASS

*Creamy
latte effect!*

A brush-applicable builder and colour enhancing gel, containing glass fibre to reinforce your nails. The milky white hue highlights and intensifies the colour of the lacgel coming on top, and also covers better.

USE

1. Cover the prepared nail surface and the entire hand surface with Perfect Prep Spray.
2. Position the guide the way the build requires.
3. Use Fiber Vitamine Gel to create the base layer, then cure it half the way (for 60 seconds under UV lamps or 30 seconds under UV/LED lamps).
4. Use Fiber Vitamine Gel to create the C-curve for the nail.
5. Cure: for 1–2 minutes (under UV lamps) or 60 seconds (under UV/LED lamps)

RELATED MATERIALS AND TOOLS

Perfect Prep Spray, Speed & Shine Top Gel, Flexi Top Gloss, LacGel Base & Top Gel, Color Top Gel, Extreme Gloss Gel, Aroma Cleaner, Ombre Sponge

Perfect tip

The fibre glass in the gel provides durability and a solid base suitable for building long nails (up to 5mm).

Perfect Butterfly Nail Form

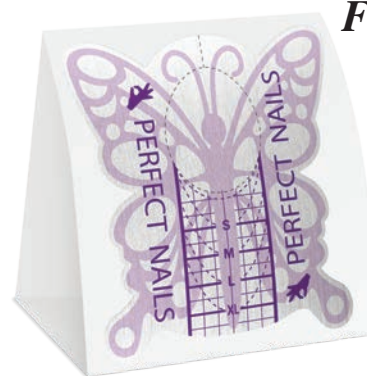

FOR PERFECT LACGEL NAIL FORM SALON WORK

A practical, salon-size nail form with metallic effect, for building extra short nails! Excellent adhesion and shape retention makes this product really pleasant to use with guides!

Lacgel Nail Form

300 pcs / pack | PNSE036

**For building
EXTRA
short nails**

USE

1. Remove the nail form from the roll, then remove the central perforated part and attach it to the back of the nail form to reinforce the hold so that the portion attached to the back side would not sag into the hole.
2. Separate the upper perforated part and create the nail shape's natural C-curve with the nail form. The nail form should fit perfectly to the nail. Cut it into shape if necessary.
3. Attach the nail form – ensure that it remains symmetrical (for this the positioning of the lower part of the nail form must also be symmetrical) and that it is properly aligned at the corner points. Meanwhile, lift the front of the nail form slightly to level it with the surface of the nail plate.
4. Use the perforated upper part to fix the nail form on the client's finger. The desired artificial nail base material can now be built upon that.

RELATED MATERIALS AND TOOLS

Elastic Hard Gel, Fiber Vitamine Gel, Acrylic Powder, Cover Builder Gel, Perfect AcrylGel, Perfect Cuticle Scissor

Perfect tip

For accuracy you can cut the nail form to shape, or you can cut into the corner points. This latter step is also useful for a more accurate fit of the material.

LIVING CORAL

THE COLOUR OF 2019

Since 2000, Pantone has specified a colour every year that has an impact on that specific year – in trends, fashion, design and thus also in everyday life!

For 2019, the slightly pastel, slightly pinkish-orange tone called Living Coral was chosen.

WHAT IS PANTONE?

The Pantone Color System is one of the most influential colour systems in the world that was created in 1963; later Pantone would produce their ground-breaking Grand Book of Colours.

HOW CAN WE, NAIL TECHNICIANS UTILISE IT?

Clients know and love coral, salmon-colour tones just as much as we do. Follow this year's trend and have the tones of coral colour available in sufficient quantities. From our Tropical Sunset LacGel Plus collection, an ideal choice may be our LacGel Plus #095 – Caribbean Dream or even our LacGel #136 lacgel for coral colour lovers. For our clients of more conservative taste, our LacGel #058 color is an excellent choice.

CHOOSE THE COLOUR OF THE YEAR!

If you like playing with not only colours and patterns, make sure your decor items also match this year's trend! Do not hesitate to use thermo powder on white nails for colour-shifting smoky patterns, or enhance LacGel colours with pigmented touch up of colours. And for lovers of this Year's Colour the perfect choice will be our new Color Magic Flakes collection's Coral decor flakes!

AcrylGel Kit

from February

*The best choice if you like AcrylGel or if you have not tried it before! You get your favourites **10% cheaper** if you buy them in a kit!*

USE

1. Having prepared the nail position the nail form the way your build requires.
2. Take out some AcrylGel from the jar with a spatula and put it on the nail. Dip a acrylic brush in Perfect AcrylGel Solution, and use it to create the nail shape and surface.
3. Cure (for 120 seconds under UV lamps / for 60 seconds under LED lamps).
4. If necessary put some bend in the nail shape: apply an additional layer of gel on the surface.
5. Cure the gel completely then apply fixation. The use of shine gel is optional.

RELATED MATERIALS AND TOOLS

Perfect Prep, Perfect Bond Primer, Speed & Shine Top Gel, Supreme Waterproof Nail File #180, AcrylGel Solution

Perfect tip

If the gel starts sticking to the brush hair dip the brush in Perfect AcrylGel Solution. You may want to avoid overusing it as it may overthin the gel which may lead to the gel peeling off the nail.
